# SCHOOL LIFE

School Life is the best life for a student. This phrase says that life is all about learning for something new innovation. School gives us better education, joyful life, careless about everything, etc. It is the most important part of life.

School life is the best phase of life for every individual. It's the period when you gain knowledge, Enjoy with friends, take tension regarding exams, not complete homework on time, copy homework on the submission day, talking with eye contact during examinations. Many students go for various competitions representing their schools. The whole life you don't forget your prestigious friends! This is the innocent pleasure which we cannot get anywhere else. Some friends are very naughty while some are very innocent!!

Some students like to disturb the whole class. Students get an opportunity to showcase their talents, skills, abilities etc. We never forget such beautiful memories. Many students hate getting up early morning. But love to go to school. Schools organize Annual Sports Day as well as Annual Cultural Day every year. Also it celebrates Independence Day and Republic Day. There are March past events, dances, songs. Students participate in such events whole heartedly.

We should always cherish and perish such moments. School memories are the memories which we never forget. The time which we spend with relatives is different memories but the times spent with school friends are very different but the most favourite moments. Schools help you to decide your future.

**School may be hard, ANNOYING and irritating ....But admit it,  
You are going to miss it when it ends!!**

# PARENTS- GODS GIFT

Parents pick us so many times,  
When we are just a child.  
They dried the tears rolling down,  
And kept us by their side.  
Their affection and kindness;  
Warm feelings it brings.  
They guide and protect us,  
Under their mild wings.  
They think about our future,  
All the time.  
And strive to keep us  
Away from disputes and crime.  
Words can't repay or explain  
The love and feelings.  
But I hope that they know,  
That without them there are no healings.

# PEACE

“To survive in peace and harmony, united and strong, we must have one nation, one flag.” This quote simply means to achieve peace and harmony, people be united, there should be no discrimination and each and every human being should always cooperate with each other.

End number of wars and rebellions broke out during the 19<sup>th</sup> and the 20<sup>th</sup> century. This caused a lot of destruction, bloodshed and lack of peace. The issue of war and peace has always been a focus in all periods of history. Now -a-days the most urgent and important international objective is to preserve and protect the world against terrorism and protest for peace.

The upcoming generation demands for international peace and harmony.

Albert Einstein has rightly said,

*“PEACE CANNOT BE KEPT BY FORCE,  
IT CAN BE ONLY ACHIEVED BY UNDERSTANDING”*

# MOVIE REVIEW

This part is actually the prequel of Bahubali 1 because initially the story traces the origins of Bahubali's father, who was originally meant to be the king of Mahishmati. It also delves on the love-story between Amrendra and Devasena (Anushka Shetty), who is the mother of Mahendra Bahubali (Prabhas in a dual role).

Recounted in the folklore-meets-Aesop's fable –style, the plot is simple and carries the good triumphs over the evil thought just like the first part did. Bahubali 2- The Conclusion carries the equity of the first part on its shoulder and ups the scale on many counts-especially heroism. Bahubali has been sketched out as a symbol of strength and power that makes you root for him throughout. What's more, this part provides an answer to a question uppermost in everyone's mind for the last two years- it tells you why Katappa, the old faithful, killed Bahubali senior!

# C O N F E S S I O N

A confession is a statement made by a person or by a group of people often to showcase feelings, thoughts or hidden truth.

A confession can transform a person's life or the way he or she captures it. It can make you feel very light-hearted. This is perhaps the reason why Christianity allows confessions. All you have to do is speak up your mind to the Father. When you confess your hidden truth to a person, you will feel relieved also the bond that you have with the person will improve and become more trustworthy. However, at the same time you need to be careful whom you are confessing to. Confessing to the wrong person can create many problems. In addition, confessing in the right spirit is also significant. If you go and speak up to the person arrogantly, it won't help. But if you speak while you are in a positive state of mind, you win!

We can therefore conclude that confession is a good tool for self-realisation. It can be used to make oneself a better person. This in turn can be useful to the society and the world as whole.

# OVERCOMING CHALLENGES

It's truly fascinating how different people approach different challenges. For successful people, where others see impenetrable barriers, they see challenges to embrace and obstacles to overcome. But do we actually know what holds the success mantra to these people's lives. Their confidence in face of hardship is driven by the ability to let go of the negativity that holds so many people back. Optimists fare better; they treat failure as learning experiences and believe they can do better in future.

We should follow our heart and allow our passion; not the body we live in to be our guide for a better and successful life. When our sense of pleasure and satisfaction are derived from comparing ourselves to others, we are no longer the master of our destiny and our life gets shaped according to other people's expectations and thinking.

Fear is nothing more than a lingering emotion that is fuelled by our imagination. Instead of complaining how things could have been or should have been, we should reflect on everything they have to be grateful for. Then we can find the best solution available, tackle the problem and move on.

Like fear, the past and the future are products of our mind. No amount of guilt can change the past and no amount of anxiety can change the future. If we know this, and if we focus on living in the present moment, we can overtake every challenge life has to exhibit.

With discipline and focus, we can ensure that these obstacles never hold us back from reaching our full potential.
