Welcome to the BCG family!

The Bombay Cambridge Gurukul schools are unique in that they have evolved out of a philosophy, an idea. Since 1988, inspired by great thinkers of the times, BCG pioneered the concept of 'caring schools', introducing several child-friendly concepts ahead of time, validated today by educational research across the globe.

Cognizant that the child today will apply his/her learning in a future that is 20 years away, BCG schools have a robust digital, life skills and curricular program. Our alumni are spread across the globe, and are active mentors to our students.

In BCG, **every child matters**, and it is reflected in every step of our course plan and activities. Our educational program is driven by our mission – excellence in academics and excellence in behaviour! We take pride in our students' accomplishments, and their achievements are a testimonial to our educational philosophy.

Parents play an integral role in setting direction for their child, and our partnership will provide the impetus for success. We welcome you to begin your child's journey with us, and look forward to a long lasting and enriching relationship.

Vikram Patel
Chairman

Our Mission is to provide a dynamic learning environment in school that is committed to achieving excellence in academics and behaviour in our students. Our school provides a nurturing climate for children, caring teachers to facilitate the development of 21st-century skills and a sensitive curriculum which develops equally the hearts and minds of our students.

Our Vision is to generate world graduates, who possess the crucial skills and values to develop a humane society and be the fore-runners of thought as responsible citizens of a global community.

Beyond The Boundaries

At Dr. S. Radhakrishnan International School, Borivali, we firmly believe in 'excellence in education and excellence in behaviour', for which we strongly emphasize a positive teacher-student relationship. Our educators bring along a rich experience in academics and student management. To foster excellence in cognitive and social skills, we provide a wide range of activities to our students. Every child matters in our school; not confined only on paper but in spirit too! A dynamic and stress-free learning environment is created by students being at the centre and designing practices around it. We believe that a school must maintain a positive aura and that all the stakeholders feel happy to be here. We have integrated Social Emotional Learning in our curriculum, stressed upon by experts as the need of the hour.

Our school is a result of many discussions, deep study, professional consultations, and a conviction that education is the foundation of a strong nation. We are continuously evolving and have set markers to ensure we are moving in the right direction – one where our students are future-ready and have every advantage to ensure their success.

We believe **"Being best is not important, being better than yesterday is!"**

Parent and Student Workshops

BCG Academia provides students with an option to study under the Cambridge Assessment International Education, UK (IGCSE) or Maharashtra State Board Secondary School Certificate (SSC).

With our highly trained teachers and over 25 years of educational research and refined methodology, we ensure that each student is able to maximize their academic potential.

With World Toppers and A* achievers in IGCSE and over 75% of our students scoring over 90% in the SSC exams – BCG’s superior curricular program caters to every type of learner.

Gurukul Kindergarten

The Kindergarten curriculum is implemented using the play-way method and includes consciously planned activities for all-round development. It is designed to match the pace of individual learners and calibrated to their developmental stage. The students enter the world of Primary education with confidence and build on the foundations of skills acquired in preschool.

Primary and Secondary Education

The course is as prescribed by the Brihanmumbai Municipal Corporation for the Primary, and as per the Maharashtra State Board of Education for the Secondary section. The teaching methodology uses the prescribed textbooks of the Maharashtra Board and includes field trips, project work, and specially designed worksheets that ensure complete learning and inculcate the habit of self-management.

Students have an environment that allows them freedom for individual expression and develops the capability that is required to show achievement in the final examinations as per the standards set by the Board. The academic level of students shows that they are well up to the standards of measurement, while at the same time, able to participate in the numerous activities that the school provides for them. The students are bench-marked with the best in the State and participate in various events and competitions organized by the Education Department.

Our students have consistently made us proud with their extraordinary achievement at the SSC Board examinations.

SSC Topper 2022-23

I'm Disha Somani, a proud DSRBian, would like to express my sentiments on successfully achieving the first position in school.

I'm extremely grateful to all my teachers, my Heads and my Principal for their constant motivation and guidance. They have helped me to excel not only in academics but also in life. They have played an important role in helping me inculcate strong values for a better future. I have learnt to aim high and dream big, and also learnt to believe that hardwork is the key to open the door of success.

A special thanks to the Social Emotional Learning Curriculum (SEL) teachers who not only made schooling fun but also solved the problems like stress and insecurities. They are the ones who have taught me to love myself and start believing in myself which helped me to gain confidence. I am very glad to achieve a high score in my Board exam and the credit goes to none other than my teachers and my school.

BCG Initiatives

Learning for Enhancing Academic Prowess (LEAP) - Designed to help our Std. 10 students who excel in academics, the BCG LEAP program is driven by our senior and highly qualified faculty members. They use their expertise and competence to guide the meritorious students to reduce the margin of error, if any, and attain the best score through individual and in-depth guidance and feedback thereby helping them to hone their content skills, master time-management and test preparation, and maximize their scores.

School Facilities

Our school facilities are consciously planned to provide the best advantage to the learner and to ensure educators have every teaching method available to them. These systems ensure that essential skills for responsible citizenship and personal care are taught to students.

- Qualified and Experienced team of educators
- Air-conditioned classrooms
