Give Your Child The Future-Ready Advantage!

WELCOME TO THE BCG FAMILY!

The Bombay Cambridge Gurukul schools are unique in that they have evolved out of a philosophy, an idea. It began in 1988 with the awareness that the true meaning of education is yet to be discovered. Inspired by great thinkers of the times, BCG pioneered several educational child-friendly concepts ahead of time. Cognizant that the child today will apply his/her learning in a future that is 20 years away, BCG ensures our faculty is trained to nurture the minds and hearts of the developing child. Today, more than 30 years later, all of our innovations have found validation. Every educator and behaviourist unanimously holds these practices as essential to the growth of children.

- 1989: Focussed on developing a healthy mind, BCG instituted the first **counselling and remedial centre**.
- 1990: **Computer education** was introduced for all students from the age of 6 years.
- 1991: **Stress-free educational practices** adopted, eliminating competition and formal examinations for children upto age 10.
- 1993: To help students make a smooth transition through developmental stages, BCG introduced **life skills education and career guidance** (now SELC).
- 1995: **HRD department** established to create sensitive school environments.
- 1996: Department for **Curricular Planning and Development** instituted to provide the best educational material for our students.
- 1996: **Parent programmes** offered to develop a strong and positive school-parent partnership.

Innovation in education is no one's prerogative. Every child everywhere deserves a good education with caring and sensitive educators. We have been fortunate to have been able to serve and contribute to this field, and have generously shared our learning with the fraternity and the community. To be a part of BCG means to learn along with your child, to share your learning, and to move into the future with confidence and clarity. Our students excel in all fields, at all levels. Their achievements in public examinations and competitions are a matter of pride and a testimonial to our educational philosophy.

As Plato said, "The direction in which education starts a man, will determine his future life." In BCG, **every child matters**... and it is reflected in every plan, process, and practice of our schools. We welcome you to begin your child's journey with us.

About Bombay Cambridge Gurukul

Our Mission

is to provide a dynamic learning environment in school that is committed to achieving excellence in academics and behavior in our students. Our school provides a nurturing climate for children, caring teachers to facilitate the development of 21st century skills, and a sensitive curriculum which develops equally the hearts and minds of our students.

Studying in Bombay Cambridge Gurukul

is an unforgettable experience. Our students are our priority and at the heart of all our planning. It is our constant endeavour to provide learning experiences that are rich in diversity, appeal to multiple learning styles, and empower students with the confidence that comes from experiencing success.

Our Vision

is to generate world graduates, who possess the crucial skills and values to develop a humane society, and be the fore-runners of thought as responsible citizens of a global community.

Welcome to Dr. S. Radhakrishnan International School

Manisha Arondekar
Principal

At Dr. S. Radhakrishnan International School, Borivali, we firmly believe in **‘excellence in education and excellence in behaviour’**, for which we strongly emphasize a positive teacher-student relationship. Our handpicked faculty of trained educators bring along a rich experience in academics and student management. Teachers are trained to focus on individual students for differentiated learning practices, communicating detailed guidelines, followed by timely feedback and appreciation. It assures students about their involvement in the learning process and builds academic confidence in them.

To foster excellence in cognitive and social skills, we provide a wide range of activities to our students. In order to make responsible citizens, students are also involved in community activities. Every child matters in our school; not confined only on paper but in spirit too! A dynamic and stress-free learning environment is created by students being at the centre and designing practices around it. Equal opportunities are given to all students with a significant weightage to co-curricular activities in their regular schedule.

We believe that a school must maintain a positive aura and that all the stakeholders feel happy to be here. In order to create a happy and caring school environment, we have our school mascot- Joyie, who is an essential part of our mission of creating a positive school environment. Parents are our partners in child's education and specially designed programs are organized with an aim of their active involvement in school activities. We have integrated Social Emotional Learning in our curriculum, stressed upon by experts as the need of the hour. It is delivered by trained professionals in the mental health field, and students learn to express themselves on a variety of topics that constitute their world.

Our school is a result of many discussions, deep study, professional consultations, and a conviction that education is the foundation of a strong nation. We are continuously evolving and have set markers to ensure we are moving in the right direction – one where our students are future-ready and have every advantage to ensure their success.

We believe “Being best is not important, being better than yesterday is!”

BCG Academia provides students with an option to study under the

- Cambridge Assessment International Education, UK (IGCSE) or
- Maharashtra State Board Secondary School Certificate (SSC)

With our highly trained teachers and over 25 years of educational research and refined methodology, we ensure that each student is able to maximize their academic potential.

With World Toppers and A* achievers in IGCSE and over 75% of our students scoring over 90% in the SSC exams – BCG's superior curricular program caters to every type of learner.

**Multi-Dimensional
Modes of Learning...**

...including online

Cambridge Assessment International Education, U.K.

Here, at the Bombay Cambridge Gurukul, we take the approach that each child is unique, with special talents and abilities and an individual learning style.

The EYFS or Early Years Foundation Stage sets high standards for inclusive learning and development of children in pre-school years. The cognitive development of the child is highest during these formative years, and the curriculum has been effectively designed to make sure children get to the next stage of learning with confidence.

Our Prep classes offer a safe and caring learning environment, which promotes age appropriate and all-round development. More importantly, students are prepared with the right attitude to learning that will ensure success in mastering the world-class content of the Cambridge course.

Learning through play, activities and field trips, the EYFS course content builds on the inter-connections inherent in:

Communication & Language

Physical Development

Personal, Social & Emotional Development

Literacy

Understanding The World

Mathematics

Expressive Arts & Design

Cambridge Primary & Secondary Course

The Cambridge International curriculum sets a global standard for education, and is recognised by universities and employers worldwide. The curriculum is flexible, challenging and inspiring, culturally sensitive yet international in approach.

Cambridge students develop an informed curiosity and a lasting passion for learning. They also gain the essential skills they need for success at university and in their future careers. Cambridge uses internationally benchmarked tests, giving parents extra trust in the feedback they receive.

The programme at Dr. S. Radhkrishnan International School develops young learners who are confident, responsible, reflective, innovative and engaged. At each stage, students build on their previous learning – and our syllabus design reflects a ‘spiral’ approach, providing a natural progression throughout the primary years and beyond.

The popularity of Cambridge IGCSE curriculum has been steadily increasing among parents because the Cambridge Assessment International Education offers students several advantages over other boards.

Here are some of the biggest benefits and advantages IGCSE offers:

A Range of Choices:

Our students choose subjects by grade 8, so that they can focus their attention and energy on building crucial concepts and skills in a stream of their choice.

Proficiency in English:

With English as a First Language, our learners gain high proficiency and fluency in communication skills, leading to a strong identity and voice in the global space.

Global Connect, Local Relevance:

While IGCSE strongly encourages students to develop a global outlook and promotes international mindedness, our students build strong ties to their local and cultural roots right from the early stages.

Maharashtra State Board (SSC)

World-Wide Recognition:

CAIE is like the Gold Standard of educational qualifications and is accepted and recognized by the world's best universities, organizations and governments. Several BCG students are now studying or working with the best minds in the world.

Lessons for Life:

The methodology encouraged by CAIE builds sustainable academic skills in students. With its application based approach, students develop into independent and confident learners.

With its quality assessments and inquiry-based approach to learning, the Cambridge IGCSE ensures that its learners have 21st century skills preparing them to be international citizens of tomorrow.

I am extremely overwhelmed on becoming the school IGCSE topper for the academic year 2021/22. This is a product of great learning and education provided by school starting from Junior KG all the way to Grade 10. I would like to thank the school and all of my teachers for the support provided, and enabling me to achieve numerous milestones over the years.

Further, I would like to applaud the school's swift and apt measures during the pandemic - learning was not affected in the slightest.

Now when I meet students from other schools, do I truly realise the superior quality of education that I have received at this

school.

The message that I have for my school mates is to stay focused and be consistent in studies, while participating in extracurricular activities. And importantly to believe in the school, the teachers and yourselves.

All the best -

Thank you and regards

Our schools Dr. S. Radhakrishnan International at Malad (West) and Bombay Cambridge International at Andheri (East) offer the Advanced Levels (A and AS) in the key streams of higher education.

The Kindergarten curriculum is implemented using the play-way method, and includes consciously planned activities for all round development. It is designed to match the pace of individual learners and calibrated to their developmental stage. The students enter the world of Primary education with confidence and build on the foundations of skills acquired in pre-school.

Primary and Secondary education:

The course is as prescribed by the Brihanmumbai Municipal Corporation for the Primary, and as per the Maharashtra State Board of Education for the Secondary section. The teaching methodology uses the prescribed textbooks of the Maharashtra Board and includes field trips, project work, and specially designed worksheets that ensure complete learning and inculcate the habit of self-management.

Students have an environment that allows them freedom for individual expression, and develops the capability that is required to show achievement in the final examinations as per the standards set by the Board. The academic level of students shows that they are well upto the standards of measurement, while at the same time, able to participate in the numerous activities that the school provides for them. The students are bench-marked with the best in the State and participate in various events and competitions organized by the Education Department.

Our students have consistently made us proud with their extraordinary achievement at the SSC Board examinations.

school have given their very best for engaging activities. The school organized session for pre- boards, stress management and even career counselling, workshops and moderator sessions for different subjects. etc. Teachers have been tolerant and calm during the online pandemic even though the students weren't responding, they cleared our doubts and concepts through visual teaching. The SELC classes helped us to discuss various issues close to our heart and gave us insight into being mindful. It has been an honour to be a student of Dr.S Radhakrishnan Vidyalaya

From entering the gate of the school to the very last day of my schooling my teachers have been very supportive, kind and benign. The support staff has been very helpful. The span of a decade attending school went by like a beautiful dream. However, it was a wonderful journey and to be recalled for the rest of my life. The teachers provided the adequate guidance required for the boards and exams which helped me while preparing for the upcoming boards. The regular discussion of paper patterns, exposure to different sets of questions etc. They have been very patient in solving even the silliest of the doubts. The school encouraged extracurricular activities for sports, arts, music, writing, which helped in channelizing the inner talent being great alternative for a healthy detach from academics once a while. Even during the pandemic, the teachers, the

The Social-Emotional Learning Curriculum (SELC)

Social and emotional learning (SEL) is the process through which children understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions.

1 Life Skills Education Modules:

The emotional safety and well-being of children is as important as their physical growth and well-being. The life skills sessions are developed by trained and experienced professionals from the field of Education and Psychology to provide platforms for discussions with students at all levels from pre-school to class 10.

2 Global Responsiveness and Sensitivity Program (GRASP):

Relationships form the core of all human values, and the programme helps students learn their relationship with themselves, with people around them, and with all elements of their environment. In GRASP sessions, educators provide students opportunities to learn about their environment, the impact of human behaviour, the advantages of diversity, and priorities set in the world agenda. Secondary section students have an opportunity to serve on the Student Council, and involve themselves in the planning and implementation of the Student PEACE Code towards building a positive school environment.

Senior students are provided important life experiences during camp, where they engage in adventure and inter-personal bonding activities under the professional supervision of experienced trainers. Placed in semi rustic conditions and surrounded by nature, students work in teams, explore their inter-personal strengths and challenges, build resilience, learn to care for the environment, and share resources.

The 5 competencies of SELC:

Self awareness

Self management

Social awareness

Relationship skills

Responsible decision making

3 Annual Fests:

With the school's 100% participation policy, every student from Kindergarten to class 10, participates in events that display their particular talents and aptitudes. Students present these skills to their parents in a grand function that is celebratory and euphoric, filling everyone with a deep sense of pride for the school and its students.

Performing Arts:

Kaleidoscope for the Kindergarten and **Crescendo** for the Primary and Secondary – students display their talents on the annual cultural day, a fine blend of skills and aesthetics learned through their art, craft, dance, drama and music courses.

Sports and Games:

Head-Over-Heels in Kindergarten and **Momentum** for Primary and Secondary – the Annual Sports Meet is the culmination of fine and gross motor skills learning, set in age appropriate activities, displays and competitive sports. Senior students can opt to be in the school's sports teams for basketball, throw-ball, handball, football and kho-kho, & play at inter-school matches and sports meets. Indoor games such as chess, carrom, table-tennis and badminton are also encouraged in school.

School Exhibition:

The school annual exhibition **Effervescence** has students' present to parents their skills with academic projects related to the different subjects they study, and the practical application of key concepts. Students prepare models and charts and demonstrate experiments which showcase their knowledge and skills. In the lower classes, the school organizes a fun-fair where parents can bring their children to enjoy games, rides, and edible treats. It is a great family outing and lots of fun.

What make the annual fests special is that the best of the school is on display, the students and staff play host to our honoured guests – the parents, and a festive environment of camaraderie and excitement pervades the hearts and minds of all present.

4 Personal Awareness and Career Explorations (PACE):

The PACE programme provides access to professional online portals so that students can explore their interests and aptitudes. Students acquire the competencies and awareness required to develop a road-map to their further education and future career.

5 Enrichment Activities:

Under the **Global Schools Program**, supported by UNESCO, our senior students engage in various community projects that bring to them the experience of civic responsibility, social awareness, understanding realities of different segments of society, value of empathy, compassion and generosity, as well as understanding the power of action. Students learn that they can make a difference, and that real change has to begin with them.

In keeping with the school's belief that competitions and comparison are damaging to children at a young age, BCG introduces **interschool competitions and examinations** from the age of 11 years onwards. From class 5 onwards, students are offered a multitude of opportunities at the national and international level.

With trained teachers to guide their preparations, our students excel in these and their achievements are our pride.

School Facilities

Our school facilities are consciously planned to provide the best advantage to the learner, and to ensure educators have every teaching method available to them. These systems provide support for all types of learners, and ensure that essential skills for responsible citizenship and personal care are taught to students, leading to successful integration in a rapidly-changing global environment.

- Qualified and Experienced team of educators
- Air-conditioned classrooms
- Play area for Kindergarten
- SMART Board technology
- Contemporary Science Laboratories
- State-of-the-art Computer Centres
- Open-access Library
- Coaching for Games & Sports Activities
- Counselling & Remedial Services
- PACE – Career Development Programme
- Centre for Educational Design & Publishing
- Department of HRD

The school canteen offers delicious and hygienic food for students, a fond memory of the alumni. The transport services of the school are professionally managed, with female staff. The school security system is manned by experienced staff, and supported by CCTV cameras and biometric systems. The school has regular safety audits and an active **Child Protection Policy**.

We have a **dedicated school app** for parents which regularly updates them about the activities in their child's class, their data on school records and notifications about important events. This helps the parent stay current on all information related to their child and the school at the click of a button.

During the pandemic, the school has successfully established a fully functioning online classroom system with Google Classrooms, so that student learning continues effectively. Our fully trained staff rose to the occasion magnificently and guided students and parents into a smooth transition with sensitivity and care, providing exciting and interesting activities for learning on our online platform.

The School Captain Speaks...

Our School is one of the main factors which has shaped me into a better person and helped me grow, both academically and behaviorally. With proficient and helpful teachers, I was better able to focus on my studies and aim for higher goals in academics. There were no unresolved doubts. The constant repetition and revision aided in understanding the concepts.

I have always looked up to teachers and their calm and respectful behavior. It has undoubtedly molded me into a humble and polite human. This year, the Student Council hosted several activities: Drama for Classes 6 to 8 and Debate for Classes 9 and 10 in July, Paint A Song Activity in August, and Quizitorium in September. Along with that, the Council has continued the monthly newsletter. Hosting such activities boosted my confidence and self-esteem and also my ability to handle unprecedented situations. Moreover, the SELC sessions in our school truly aid us in understanding ourselves.

Also, discussion of taboo topics makes us more alert and aware of ourselves as well as our surroundings. Such sessions truly help us face the outside world which is a crucial part of our lives. Overall, our school has provided us with much exposure to different skills and taught us many topics, not limited to only academics.

Jiya Choksi
School Captain (2022 -2023)
 Dr. Sarvepalli Radhakrishnan Vidyalaya
 Dr. S Radhakrishnan International School

Learning Never Stops In Our School

BCG's latest venture in the field of education is - The Primary Enrichment Programme (PEP)

The PEP is a unique programme designed keeping in mind the needs of our bright, young students who are curious to discover and know more. It aims to raise self-awareness and bring forth the 21st century skills, helping students become reflective, conscious and critical thinkers. In a two hour, weekly online session, students are exposed to a range of ideas, activities and information. Our dynamic teachers design special learning modules that challenge students to go beyond the standard curriculum and create new and unique modes of independent learning. The concepts covered are chosen judiciously. The teachers, being facilitators, skillfully lead the students to express their imagination and apply the principles of different concepts that expands knowledge and the understanding of the world around them.

We at BCG are excited to broaden our students' experiences and capabilities, and thus push the boundaries of their horizons!

A BCG initiative for Std. 10 Students - The LEAP Programme (Learning for Enhancing Academic Prowess)

Designed to help our Std. 10 students who excel in academics, the LEAP programme is driven by our senior and highly qualified faculty members possessing over 15 years of experience in being teachers, examiners and moderators in the State Board Exams. They use their expertise and competence to guide the meritorious students to reduce the margin of error, if any, and attain the best score.

A two-hour class, scheduled thrice a week, provides a platform for comprehensive test preparation including intensive practice in writing with a special focus on technique. If required, the teachers go the extra mile scheduling an additional class in the week, as per student need. As subject-mentors, they empower students by clarifying doubts and providing valuable strategies and tips. Students are assessed frequently and their answer sheets are corrected meticulously to train them for the upcoming board exams. The individual and in-depth feedback given to each student helps them to hone their skills, master time-management and maximize their scores. The LEAP programme motivates and prepares our deserving students to go a step beyond to achieve their best.

Parent Testimonials

Respected Teacher,

The Rendezvous event was so joyful and energising, I literally felt like a kid again, without any worry, responsibility, just fun time. Thank you so much to you as well as school management for conducting such event for parents too. Such events do help to develop bond between teachers and parents. Looking forward for more such events.

Access day: I think it's a great initiative by school, to conduct access days for parents. I am happy that school is literally following the triangle rule, where kids are in centre and parents and teachers are two ends. It gave me idea on what I have to work on for my kid and how much efforts you as a teacher are taking for our kids' development. Thank you so much.

Regards,
Vidhi Trivedi
Parent of Praanvi Trivedi - Prep 1B

Hello Madam,

On the 12th August 2022 we experienced our very first access day. We all were very keen to know about the manifesting classroom methodology. After reaching in classroom we were revealed with the secret of why our kids want to attend the school daily and even on holidays.

Classroom ambience and resources used for educational purpose are excellent. The riddles, the videos were amazing. We experienced a special bond between teachers and kids. Personally I believe this methodology encompasses the principles and methods by teachers to empower student's success within the classroom. Also the key to success is connection, consistency and compassion. Indeed it was a great experience and fruitful session. Looking forward to our upcoming meetings.

Regards,
Swapnil Dalvi
Parent of Dhiiraaj Dalvi - Prep 1A

Respected Teacher,

Hope you are doing well. It's been a great startup of our Grade 2 journey. I must say our class teacher is very cooperative and understanding.

All the reflections of the month are presented beautifully in the video. And yes, the interactive PTM's are such that we parents can approach her for all our doubts and she makes sure to give an appropriate solution like the time table is designed aptly to manage the weight of the school bag.

At the access day too, I had a wonderful experience to see how kids were taught story mountain. I really enjoyed it. At the end of the day when all of them enacted the story in groups it was worth a watch!

Even other subject teachers gave their precious time to me and shared their views with me. Riya loves and enjoys studies. Thank you to all the teachers for your support and guidance.

Regards,
Prachi Kapdi
Parent of Riya Kapdi - Grade 2A

Dear Teacher,

The Reflections Video is just amazing. Capturing all the daily activities done in school along with study is done excellently. Also the joys and smiles are captured perfectly. I can see through the video that children enjoy every moment in class be it through study or activities or playtime.

Efforts taken to make this video are highly appreciated!!

Regards,
Shweta Sakpal
Parent of Reha Sakpal - Sr. KG A

Gurukul Song

Dear Ma'am,

Wishing you a very "Happy Teacher's Day" to you. Ma'am you are a true inspiration for students and even parents. The way you teach and shower love on children is really very much appreciated.

To be very honest Kavya is a big big fan cum admirer of you who always has so many things to say about you. We as parents feel so blessed to have such a wonderful teacher like you. Also, to add, I always appreciate you amongst all parents for getting all your help and guidance every time with a smile on face. You are truly a gem of a person ma'am. Happy Teacher's Day to Kavya's best and favorite teacher on behalf of Kavya and me both.

Thank you for being so kind, down to earth and extremely supportive.

Regards,
Urvi
Parent of Kavya - Grade 1A

Hello everyone,

Myself Mrugaya Sabnis, mother of Swara Sabnis std8. I would like to talk about my experience in DSRVB. I have been associated with the school almost for more than a decade. The experience teachers of the school make the academics interesting with the help of various mind catching and innovation activities. The soul motive of the school is holistic development hence along with academics they also focus on co-curricular development of the child. Life skills is one of most important aspect on which the school emphasises. I would specially like to mention that during pandemic everyone associated with the school was tirelessly working on smooth and efficient functioning of the online schooling. According to me, DSRVB makes your child capable enough to survive in the outer world hence it is one of the best school. 'Every child matters is their motto' and they totally stick to it. I am extremely glad to enroll my daughters in this wonderful school.

Thank you

Yours truly,
Mrugaya Sabnis
Parent of Swara Sabnis - Std. 8

Hello dear DSRV TEAM,

First of all, congratulations to all of you on the silver jubilee of our school. My both kids are in DSRV and I have attended both the Rendezvous events. I enjoyed all the games, dances and had lots of fun like little kids. Really, it's just a pleasure to attend both events. You guys did a great job. This event was amazing and very well organized. I would like to appreciate your hard work and teamwork with big applause for you all. You will celebrate all this fun only with your school children's but.... with parent's celebration it's a great thought really

"JISNE BHI YE SOCHA
US SOCH KO SALAM"

Yes, thank you so much
With regards,
Trupti Bhatia

Respected teacher,

We are very happy to inform you that the program of Rendezvous was immensely successful. It helped us be free of all the stress and tension and to live our childhood once again. The presence of our respected mam encouraged us a lot. The efforts of all the teachers and other staff is really appreciable. We are glad to be a part of such an enthusiastic group of parents. Thank you very much for organizing such a beautiful event.

Regards,
Parent of Sara Satose - Std. 8B

We are the Leaders that inspire
We are the spirit of the People
We are the Force that's driven
To achieve the impossible

Chorus
We dream and we know
We care and we show
We are the teachers and
We are the learners
Forever thus we grow (2)

We are the wave
We are the ocean
We are the heirs
To the legacy of Reason
We are the Force that's driven
To achieve the impossible
(Repeat chorus)

We are the light
We are the laughter
We are the caretakers
Of Time hereafter
We can change the lives
Of all like you and me
We can turn the tide
And create the land and sea
(Repeat chorus)

We are the Leaders that inspire
We are the spirit of the People
We are the Force that's driven
To achieve the impossible
(Repeat chorus)

Our Mentor

The LeAD offers programmes for schools and its various stakeholders, towards developing an environment conducive to student's healthy growth and development. Students are challenged with rapid changes in the social and technological environment, while adults are struggling to guide them. LeAD provides many opportunities for adults and students to brainstorm, discuss, and learn based on professional research and study. LeAD provides training programs, workshops and consultation to educators, parents, and students, in BCG and in the larger educational community.

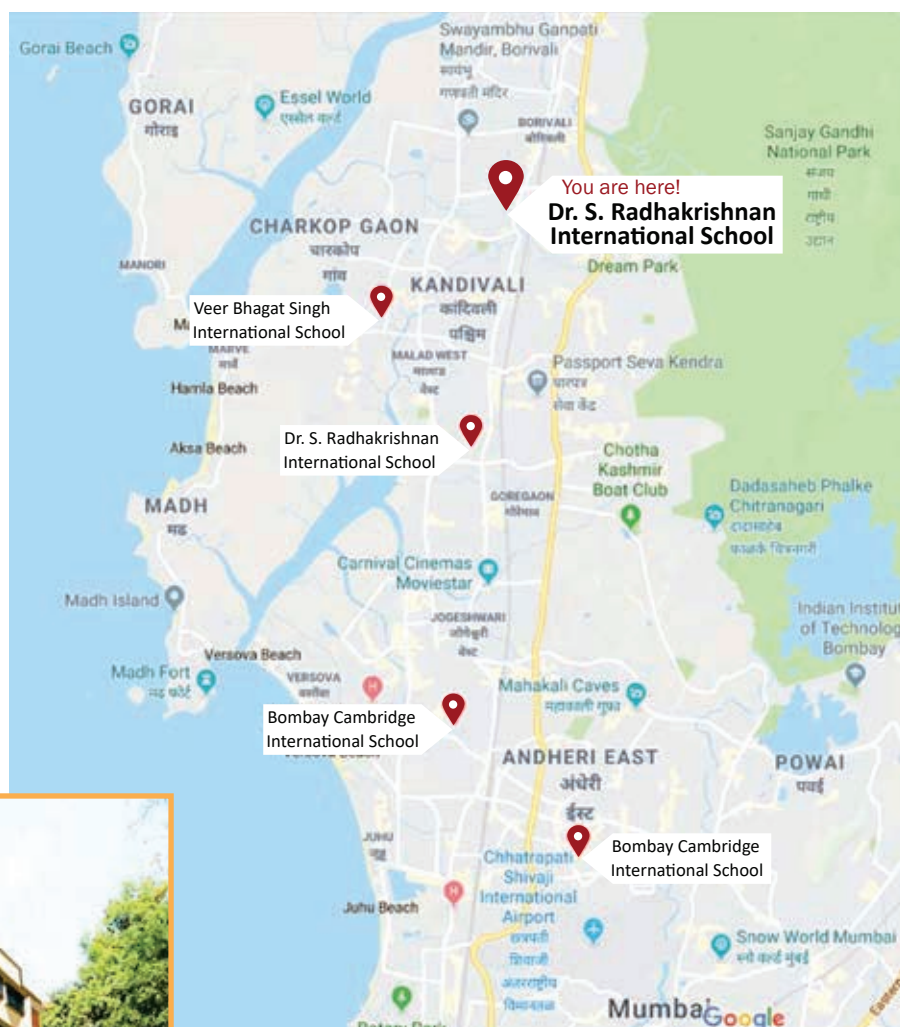

CEDP is the BCG's hub for academic analysis and development. Comprised of professionals, they study syllabi and develop learning material for teachers and students, including worksheets. Guided by the CEO, they provide content that supplements the course plan as well as material that enriches the teaching-learning process. In addition, they design and develop resources for educators, customizing it to their requirements. Their high quality services ensure that the BCG schools are always well supported and equipped with the best curricular material.

“The end-product of education should be a free creative man, who can battle against historical circumstances and adversities of nature.”

Dr. Sarvepalli Radhakrishnan
